

Job Opening:

Aircraft Maintenance Engineer

Yorkton Aircraft Service Ltd.

Yorkton Aircraft Service Ltd, located at Hangar #2, Yorkton Airport in Yorkton, Saskatchewan requires a full time, permanent AME (1). We are an AMO specializing in Agricultural spray aircraft.

We are looking for an Aircraft Maintenance Engineer with at least 5 years work experience in Agriculture aircraft maintenance including work certification experience.

Qualifications: college diploma or completed apprenticeship, resulting in obtaining an AME license

Duties: Instruct and supervise apprentices and helpers; maintain radial, PT6, Walter/GE engines; airframe, structural, fiberglass, fabric repair and painting; installing and servicing GPS systems. .

Skills: As a specialized organization we need an AME with Proven skills/experience to support these duties required.

Thrush airframe experience an asset.

Strong English skills are a must.

Hours: Monday – Friday 8am – 5pm; our busy season is April through September – additional hours required during this time. Some summer vacation is allowed but it is limited; we are family friendly and provide as much flexibility as we can.

Wage & Benefits: \$29.78 per hour; Numerous benefits including dental/health and pension following a 3 month probation period.

Yorkton Aircraft is a growing company located at the Yorkton Airport. Specializing in agriculture aircraft maintenance and product support, we deal with clients across Canada and many suppliers in Canada and the USA. We take our role in supporting our customers very seriously but we have fun doing it. We are a close knit business, operating like a family.

Resumes with reference by email only to cheryl@yorktonaircraft.com. No phone calls please.
