

*Press Release*

## **PRMC and QA Training for the Small 702 Operator**

### **For Immediate Release**

**Yorkton Aircraft Service Ltd., April 2018** - In 2013, 2016, 2017 we hosted a training course on Person Responsible for Maintenance Control and Quality Assurance for 702 Operators and their staff.

It was facilitated by the Canadian Council for Aviation and Aerospace (CCAA) - thanks to Glenn Priestly - and presented by Bernie Wurster.

*Both times, the course received rave reviews for its easy format and practical training.*

**We are planning to host another session, here in Yorkton, May 14 & 15. Please consider this your invite to join us.**

Our 2018 Course is also in conjunction with the CCAA and will be presented by Peter Boniface.

We have worked together to make this course highly applicable to the 702 Ag Operator, particularly “small” Ag operators. If you are new to the **Operating Certificate** world or if you need to dust off that manual, this course will give you that head start for getting into the manuals.

Even if you have been a long time OC holder, this course is meant to demystify the PRMC world and help you move forward.

### **Topics that will be covered (as they relate to small 702 operators)**

- Accountable Executive responsibilities
- Person Responsible for the Control of Maintenance responsibilities
- Management systems
- Audits, conducting your own and preparing for a TC Audit
- Policy Manuals
- Quality Assurance vs Quality Control – the difference
- The Process of QA
- Developing checklists
- Documenting findings
- Corrective Action plans
- Follow up
- QA documentation and management strategies

**Dates:** Monday May 14 and Tuesday May 15

**Cost:** This is determined on a cost share basis - cost of course divided by attendees. In the past it has averaged to be \$1000 -1200. We can't guarantee pricing at the moment but that gives you a ball park figure.

Price adjustments are done according to number of participants. A class size of 10-12 works real well, so that is our target.

**Location:** **PENDING** Conference room at Holiday Inn Express, Yorkton.

For your convenience we have a block of rooms set aside at the Holiday Inn. Ask for the Yorkton Aircraft block to secure the \$107 per night rate. (1.306.782.9888/Toll Free: 1.877.660.8550)

**The Instructor: Peter Boniface** [See Peter's profile here.](#)

#### **Credits**

**We have made application to have this course approved for credits for attendees toward their Provincial Pesticide Exam to avoid re-writing every 5 years.**

**Bring your manuals:** You are welcome to bring your manuals and have them with you for reference and asking questions.

**Register** with Kaci by email by clicking here: [Hey Kaci, count me in](#)

or Call her at 1.800.776.4656

**Registration deadline April 27, 2018.**

**Most FAQ: Will this course help me with my Transport interview and writing the CARs exam?** This course provides the essential background to understanding the PRMC and QA roles. More studying is necessary, but we can guarantee your studies will make more sense after attending this course.

**Who is the CCAA?** As per the CCAA website: (<http://www.avaerocouncil.ca/>)

The Canadian Council for Aviation & Aerospace (CCAA) is a not-for-profit, national partnership organization that brings together business, labour, educators, industry associations and government in a strategic alliance that is focused on implementing solutions to the specific skills and demographic needs of the industry. They offer a number of Transport recognized courses.

WE'RE THERE  
**TO KEEP YOU**  
IN THE AIR
