We Are Humbled

At the Wings of Saskatchewan Conference on October 25, 2018 the Yorkton Aircraft Service TEAM was presented with the "Distinguished Award of Performance- In Memory of Penny O'Carroll".

Thank you for the recognition- we love being your pit crew.

Thrusday Thursday

We had the pleasure of sitting down with two high time Ag pilots after completing their first season in a Thrush 510.

Part One - "The Aircraft To Be In"

Staff Spotlight

Meet Cathy Inglis, Administration Assistant, and Kenny Wong, Avionics Engineer.

Cathy is new to the team, and we are very excited to have her working with us.

Kenny is heading our Avionics department and is working on big advances for YAS!

Aircraft for Sale

2008 AT 402A

Looking for a "new to you" aircraft? Check out our [website!](#)

Looking to sell your aircraft? We'd be happy to add it to our Aircraft For Sale page. Send us your details and we will get it posted. This is a free service to the industry.

Ag Laser

Consider this GPS upgrade

The Ag Laser is an upgrade many Ag Pilots would not fly without now. Integrated with the GPS system, the laser tells the pilot his height from ground. It's also a tremendous help when flying under wires and welcome support when challenged by fatigue. Pilots new to an airplane also appreciate the laser's help getting comfortable with the aircraft.

NEWS The Ag Laser now directly interfaces with the SATLOC Bantam GPS system, eliminating the need to install a stand-alone display.
