Are You Looking for Training?

PRMC? QA? Correction Plans?

Please [let us know](#). If numbers are high enough we will organize some training days.

Thrusday Thursday

We had the pleasure of sitting down with two high time Ag pilots after completing their first season in a Thrus 510. Watch our videos to hear what the Pilots have to say.

Staff Spotlight

Meet Caroline Trost, Inventory Manager, and Erick Mtura, Aircraft Maintenance Engineer. Caroline has been with us for over 15 years. Erick came to us from NWT in January 2018.

Transland LLC Acquires Satloc®

Yorkton Aircraft has a long successful relationship (25+ years) with both Satloc® and Transland. We are very pleased with Transland's acquisition of Satloc®. See the news release [here](#).

Helping SATLOC® & Transland users for over 25 years - continuing the commitment

Outdoor Storage Tip

Storing your aircraft outside? The wind can cause a lot of structural damage if the plane's controls are not secured. We recommend using locks like these and checking their security periodically while storing.

(Rudder damage caused by wind)

(Rudder Lock)

(Aileron Lock)
